| Band length | 136 mm |
| Rated clamp cross-section | 2.5...16 mm² |
| Material | stainless steel |
| Tightening torque | 2.5 Nm |

PRODUCT DESCRIPTION

Grounding band, 1/8"..."3/8" / \varnothing 8...18 mm is used to make grounding connections. The band is clamped to the pipes using the M6 screw. Copper conductors with cross sections from 2.5 to 16mm² are fixed in the clamp. The band of the band is made of stainless steel. The bands are one of the elements for making equalisation connections in buildings, guaranteeing the correct functioning of protection against electric shock.
